<b>Office Action Summary</b>	<b>Application No.</b> 09/646,796	<b>Applicant(s)</b> KORALA, ARAVINDA	
	<b>Examiner</b> Lalita M. Hamilton	<b>Art Unit</b> 3691	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### **Request for Continued Examination (RCE)**

The RCE filed on November 20, 2007 has been processed. A non-final follows.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 106-109 are rejected under 35 U.S.C. 102(e) as being anticipated by Eaton (6,003,019), as set forth in the previous Office Action.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.

4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 34-35, 37-69, 83-88, 91-105, and 110-113 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hillson (6,118,860) in view of Eaton.

Hillson discloses the invention substantially as claimed, as set forth in the previous Office Action. Hillson does not disclose different transaction services being provided for different transaction device capabilities or capabilities of a transaction device that are different from the capabilities of a transaction device of the same transition device type in at least one other of the ATMs or kiosks. Eaton teaches a method and corresponding system for transactions in an ATM or kiosk comprising different transaction services being provided for different transaction device capabilities (col.3, line 20 to col.5, line 15) and capabilities of a transaction device that are different from the capabilities of a transaction device of the same transition device type in at least one other of the ATMs or kiosks (col.3, line 20 to col.5, line 15). It would have been obvious to one having ordinary skill in the art at the time the invention was made to incorporate the teachings of Eaton within Hillson for the motivation of extending transaction capabilities.

### ***Response to Arguments***

Applicant's arguments with respect to claims 34-35, 37-69, 83-88, 91-113 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lalita M. Hamilton whose telephone number is (571) 272-6743. The examiner can normally be reached on Tuesday-Thursday (6:30-2:30).
